The Official Newsletter of Joyce O. Community

Maiden Edition

TOUCHING LIVES, REACHING OUT...

The year 2021 began on a sombre note of lock-downs and economic down-times as the aftermath of COVID-19 trickled from the preceding year and swept across families.

Joyce O. Community organised a series of empowerment programmes targeted at mental, physical, and economically empowering the families. Here is a summary of our programme of events.

HEALTH & WELL-BEING WORKSHOPS

Joyce O. Community organised virtual workshops on health and well-being.

The programmes were held on the **3rd of April, 2021** and the **28th of August, 2021**. Both events were facilitator-led and streamed across many social media platforms. Topics discussed ranged from Mental Wellbeing, Nutrition Needs and Special Education Needs (SEN).

There was an impressive turnout of participants who asked salient questions related to the after-effects of the pandemic and shared their perspectives. It was a platform for networking, transfer of knowledge and a wealth of timely information.

Joyce O. Community

Outreach aims to be an outstanding non-profit organisation that supports families, young people and the Socially deprived.

Joyce O. Community Outreach Present

Health & Well-Being Awareness

3RD OF APRIL, 2021 12PM - 3PM

"We cannot do great things on this Earth, Only small things with great love."
MOTHER THERESA

Joyce O. Community is dedicated to making positive impact in the community, changing lives, enhancing and supporting the general well-being of the vulnerable, giving hope to the distressed and making life meaningful for all.

YOUTH EMPOWERMENT

The seminar focused on empowering young people with skills and motivating them to embrace learning and take advantage of the available training opportunities. The event featured professional educators, including Cllr Yetunde Adeshina, Founder of *Next Chosen Generation CIC*; Ugie Erhabor, Founder of *RUZEN Education*; and Irene Eribo, CEO of *Ebony Ambassadors*, to mention a few.

The Youth Engagement Seminar enhanced knowledge and skills, creating avenues for Independence for young people to gain skills for life and employability skills. Discussion highlights included crucial factors to bridging the poverty gap and developing a sense of purpose, direction and decision making leading to their Independence.

OUR GROCERY DISTRIBUTION OUTREACH

This was a huge success and has been received with open arms. We received messages of appreciation from our beneficiaries. This project commenced on **July 31st 2021** and has provided relief at these difficult times of COVID-19. The pandemic has resulted in a huge economic crunch on families. Our food distribution has supported families with healthy groceries for meal sustenance.

LOOKING AHEAD

We are confident that with these events, there are positive reactions, and eventually, the poverty gap will be bridged in the community and foster a progressive community that is self-reliant.

There's much to celebrate in 2022, and the **Joyce O. Community** team looks forward to more opportunities to reach out through our new initiatives. We strive to make life meaningful for all, and with your help, we would reach out to everyone. To donate, please click the link below.
